Carleton University and Algonquin College are collaborating on a new joint degree program, the Bachelor of Information Technology – Information Resource Management.

This unique 4-year program enables students to graduate with both a Bachelor of Information Technology degree and a Library and Information Technician diploma.

- Blended university and college program combines strong theoretical education with practical experience.
- Multidisciplinary program includes courses in information management, metadata, web interface development, programming, database theory and development, data analytics, legal issues in information technology, communication skills, library software and more.
- Up-to-date computer labs specifically maintained for the program provide access to the latest technology in the field.
- Opportunities for practicum and experiential learning including a flexible co-op option.
- Both institutions regularly consult with employers to track current, emerging and future trends in information technology.

Future opportunities
Graduates of the IRM program will have both a degree and a diploma, opening the door to a broad range of career opportunities to manage digital resources and services.
